InfoEdge India Ltd.

SOFTWARE DEVELOPER AT JEEVANSATHI.COM

Noida, India

Oct. 2014 - May 2018

- Implemented Redis Caching System to reduce the Mysql Query Load on the db tables by introducing a caching layer between the database and the PHP code. The overall db traffic reduced by 99%. Used the special data structures like hash and hash buckets to further optimise the memory space occupied in Redis.
- Implemented Rabbit Message Queues to optimise and reduce the running time of the application code by introducing asynchronous calls to the code. This reduced the waiting time of the apache requests by 200ms.

Education

National Institute of Technology

B.TECH. IN COMPUTER SCIENCE AND ENGINEERING

Raipur, Chhattisgarh

July 2010 - Aug. 2014

St. Joseph's Convent School
